DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-16, drawn to recombinant fusion proteins comprising a sub-genic Stx2e fragment of the 2e Shiga toxin in fusion with a terminal tag and vaccines comprising said fusion protein.

Group II, claim(s) 17-28, drawn to DNA, plasmids and recombinant host cells.

Group III, claim(s) 29-31, drawn to a method for producing hybridomas.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature of Group I is a recombinant fusion proteins comprising a sub-genic Stx2e fragment of the 2e Shiga toxin in fusion with a terminal tag and vaccines

comprising said fusion protein. The special technical feature of Group II is a plasmid and host cells comprising said plasmid. The special technical feature of Group III is a method of making hybridomas. The special technical features of Groups I-III are biologically, chemically and structurally different products (e.g., antibodies, proteins and DNA) and therefore do not relate to a single general inventive concept and are patentably distinct and independent from one another.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
